

SHIVANSH SRIVASTAVA

Software Engineer | Full Stack Developer | Computer Science Engineer

+91-7525891099 | shivanshsrivastava080@gmail.com | [LinkedIn](#) | [GitHub](#) | Varanasi, Uttar Pradesh, India

EDUCATION

Lovely Professional University

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Punjab, India

2024 - Present

Little Flower House

Senior Secondary (Class 12) and Secondary School (Class 10)

Varanasi, India

2020 - 2024

WORK EXPERIENCE

Banaras Locomotive Works (BLW), Indian Railways

Software Engineering Intern - EDP and Technical Systems

Varanasi, India

June 2026 - July 2026

- **Automated** modular Electronic Data Processing (EDP) pipelines, streamlining enterprise report compilation across **4 production divisions** and reducing data processing latency by **45%**.
- **Evaluated** locomotive control software architectures and diagnostic telemetry, verifying **20+ system parameters** to ensure **99.9% fault-tolerant** real-time hardware communication.
- **Collaborated** with cross-functional engineering teams in an Agile development environment to optimize computer numerical control execution pipelines, increasing industrial scheduling throughput by **30%**.

KEY PROJECTS

BLW-EAMS - Enterprise Asset Management and Maintenance ERP [\[Live Demo\]](#) [\[GitHub\]](#)

2026

Full Stack Developer | React, Vite, Node.js, Express, MongoDB, Tailwind CSS, JWT

- **Architected** an enterprise asset management platform featuring Role-Based Access Control (RBAC), JSON Web Token (JWT) authentication, and Helmet security middleware across **100% of user routes**.
- **Formulated** work order tracking and asset lifecycle workflows with QR code tagging and analytical dashboards, decreasing industrial equipment maintenance downtime by **35%**.
- **Implemented** rate-limiting, input sanitization, and structured REST APIs, maintaining **100% database transaction consistency** and achieving response times under **120 milliseconds**.

LocalDrop - Encrypted Peer-to-Peer File Transfer Engine [\[Live Demo\]](#) [\[GitHub\]](#)

2026

Full Stack Developer | Next.js, TypeScript, WebRTC, WebSocket Protocols, Tailwind CSS

- **Engineered** a high-performance peer-to-peer file transfer engine leveraging WebRTC data channels and WebSocket signaling for direct encrypted transfers with **0 server storage overhead**.
- **Designed** chunked binary streaming protocols and automated local subnet discovery, delivering **3 times higher throughput** compared to multi-hop cloud uploads.
- **Constructed** a responsive Next.js web application with real-time transfer progress tracking, connection health indicators, and automatic peer reconnection logic.

Chinh - Universal Annotation Layer for AI Conversations [\[Live Demo\]](#) [\[Chrome Extension\]](#)

2026

Frontend and Extension Engineer | JavaScript, Chrome Extension, HTML5, CSS3

- **Published** a Chrome Web Store extension that injects in-context annotation overlays across ChatGPT, Claude, Gemini, and Perplexity for active daily users.
- **Deployed** a local-first vault storage architecture using the HTML5 File System Access API, writing atomic JSON backups directly to local disk for **100% data ownership**.
- **Programmed** dynamic DOM coordinate tracking algorithms to anchor and restore highlighted conversation notes across asynchronous page rendering.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend Development: React, Next.js, Redux Toolkit, Tailwind CSS, Vite, Responsive Design

Backend and APIs: Node.js, Express.js, RESTful APIs, Asynchronous Programming, WebSockets

Databases and Storage: MongoDB, PostgreSQL, MySQL

Software Engineering: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Agile Methodologies, Git

HONORS AND CERTIFICATIONS

- **1st Rank Winner - Infosys College Hackathon (2025):** Awarded 1st place out of 100+ competing engineering teams for developing a production-ready software prototype in 24 hours.
- **Infosys Certified C++ Professional (2025):** Verified industry proficiency in Object-Oriented Programming, memory management, and algorithmic complexity.
- **Certificate of Merit (Grade 'A+' / Outstanding):** Completed the *DSA Placement Bootcamp: Master Data Structures and Algorithms for Industry* from CPE (LPU, 2026).
- **NASSCOM Foundation and Cisco Innovation Program:** Certificate of Excellence in Web Development and Software Fundamentals.

EXTRACURRICULAR ACTIVITIES AND INTERESTS

- **Robotics and Drone Aeromodeling:** Secured **2nd Position (Certificate of Excellence)** in *Flight Fury (Drone Aeromodeling)* and participated in *Robo Soccer* at the Adwitiya technical festival.
- **Quantitative and Market Analysis:** Active interest in financial markets, technical analysis, and algorithmic commodity tracking (MCX / Gold price modeling).
- **Languages:** English (Professional Working Proficiency), Hindi (Native).
